Re: E911 Quarterly Report
Rural Cellular Corporation for itself and its affiliates

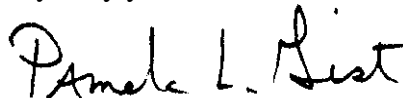

Dear Ms. Dortch:

On behalf of Rural Cellular Corporation and its subsidiaries' (collectively, "RCC") this letter is submitted to report the status of the company's implementation of E911 services.

RCC is a digital wireless carrier operating cellular radiotelephone and/or personal communications services in multiple markets. RCC is a Tier II carrier as defined in *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems*, CC Docket No. 94-102, Order to Stay, released July 26, 2002 ("E911 Small Carriers Order"). This report is submitted in compliance with the terms of that Order.

Should any questions arise with respect to this matter, please feel free to communicate directly with the undersigned.

Very truly yours,

Pamela L. Gist

1/

This report pertains to the following companies which are wholly-owned subsidiaries of Rural Cellular Corporation and are authorized by the FCC to provide broadband Commercial Mobile Radio Service: MRCC, Inc., New Hampshire Wireless, LLC, RCC Atlantic, Inc., RCC Holdings, Inc., RCC Minnesota, Inc., Saco River Communications Corporation, SRCL Holding Company, Inc. and TLA Spectrum, L.L.C.

E911 Tier II Carrier Status Report

November 1, 2002

Rural Cellular Corporation for itself and its affiliates (collectively "RCC")

Requests This report includes information on all pending requests for Phase 1 and Phase 2 service in RCC's TDMA, CDMA and GSM networks. The report includes a county-by-county listing of RCC markets, whether there has been a request, the current status of deployment and projected dates for completion of any deployments that are not complete. A brief description of the delay in any deployment is also included.

Phase 2 Service RCC has contracted with Grayson Wireless, a division of Allen Telecom, to provide a network-based Phase 2 location system for its networks. Grayson has informed the Commission that its technology satisfies the Phase 2 accuracy requirements. RCC is relying on vendor representations for accuracy and deployment schedules. RCC is diligently working toward meeting the first Phase 2 deployment milestone and anticipates satisfying those requirements unless factors beyond its control intervene such as zoning issues, LEC readiness, PSAP readiness, equipment availability, and equipment interoperability. RCC is currently working with Grayson to provide a network-based solution using AOA/TDOA technology in its Wireless Alliance, LLC (WALLC) GSM-based networks operated in a joint venture with VoiceStream. At the same time, as noted on the attached spreadsheet, RCC is waiting for deployment by T-Mobile, with whom RCC has a switch share arrangement. To date RCC has received Phase 2 requests in the States of Vermont and Minnesota. The requests are being treated as valid at the present time.

LEC Readiness RCC has retained Intrado to perform Phase 1 wireless ALI database services, and also for Phase 2 MPC and ALI database functions. Intrado is a nation-wide provider of these services, and has for some time been working with the PSAP entities in determining LEC readiness for Phase 1 and Phase 2.

Leasing and Zoning Issues RCC's networks are predominately located in rural to semi-rural areas. In some areas RCC will need to augment the capability of the Time Difference of Arrival (TDOA) network-based solution with Angle of Arrival (AOA) systems, which require that antennas be located at the tower site, in addition to the electronic equipment that is located in the cell site shelter. The AOA antennas are approximately 3 feet by 3 feet for 850MHz networks and 2 feet by 2 feet for 1900MHz networks. This will necessitate in many cases obtaining permits and permitting, lease modifications, and in some cases modifications of the antenna tower. RCC is working diligently toward the fulfillment of all these issues. In some areas of the country the zoning climate may make it difficult to install the AOA antennas. This could result in certain areas not being fully compliant with the accuracy requirements.

AFFIDAVIT

County of Douglas

SS

State of Minnesota

I, SCOTT DONLEA, having been first duly ~~sworn~~, depose and state ~~as follows~~:

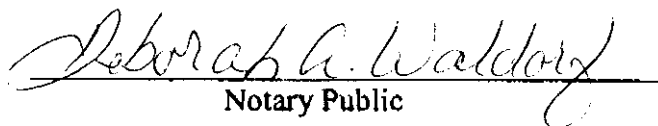

1. I ~~am~~ Vice President -- Market Development ~~for~~ Rural Cellular Corporation.
2. I am familiar with the facts contained in the foregoing Quarterly Report of Phase-In of E911 Phase II Compliance, and I verify that those facts ~~are true~~ and correct to the ~~best~~ of my knowledge and belief, except that I do not and need not ~~attest~~ to those facts which are subject to official notice by the Commission.

I declare under penalty of perjury that the foregoing is true and correct.

Scott Donlea
Vice President – Market Development
Rural Cellular Corporation

Subscribed to and sworn to before me
this 31st day of October, 2002.

Notary Public

My commission expires:
